Defense

Who We Are

- **Program Executive Office Enterprise Information Systems is a pivotal information technology enabler within DoD and the Army's objective force.**
- **PEO EIS is responsible for implementing the Army's enterprise infostructure, backbone communications, and business systems which support Combatant Commanders and meet the Chief of Staff of the Army's vision.**
- **PEO EIS reports to the Assistant Secretary of the Army for Acquisition, Logistics and Technology.**

ISMs	-Power Projection
TAO	-Special Technology Applications

Acquisition Controls

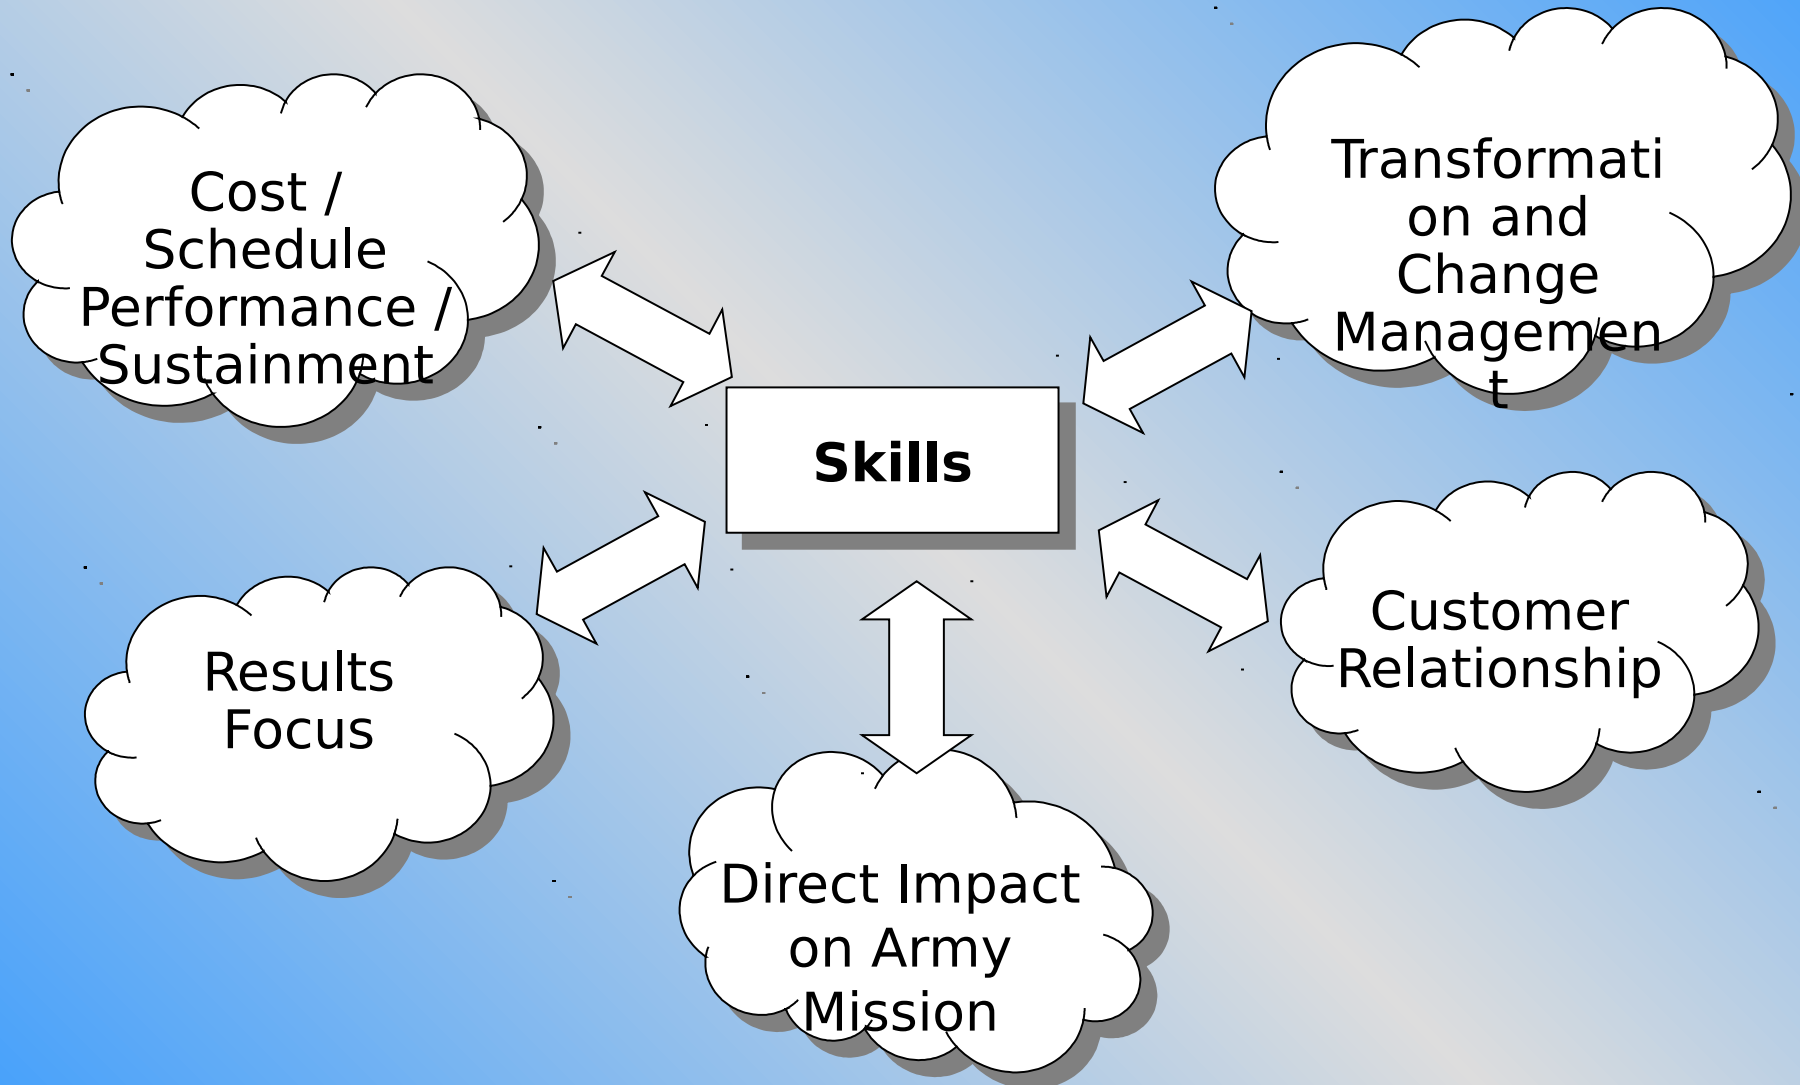

PEO Program Tracking

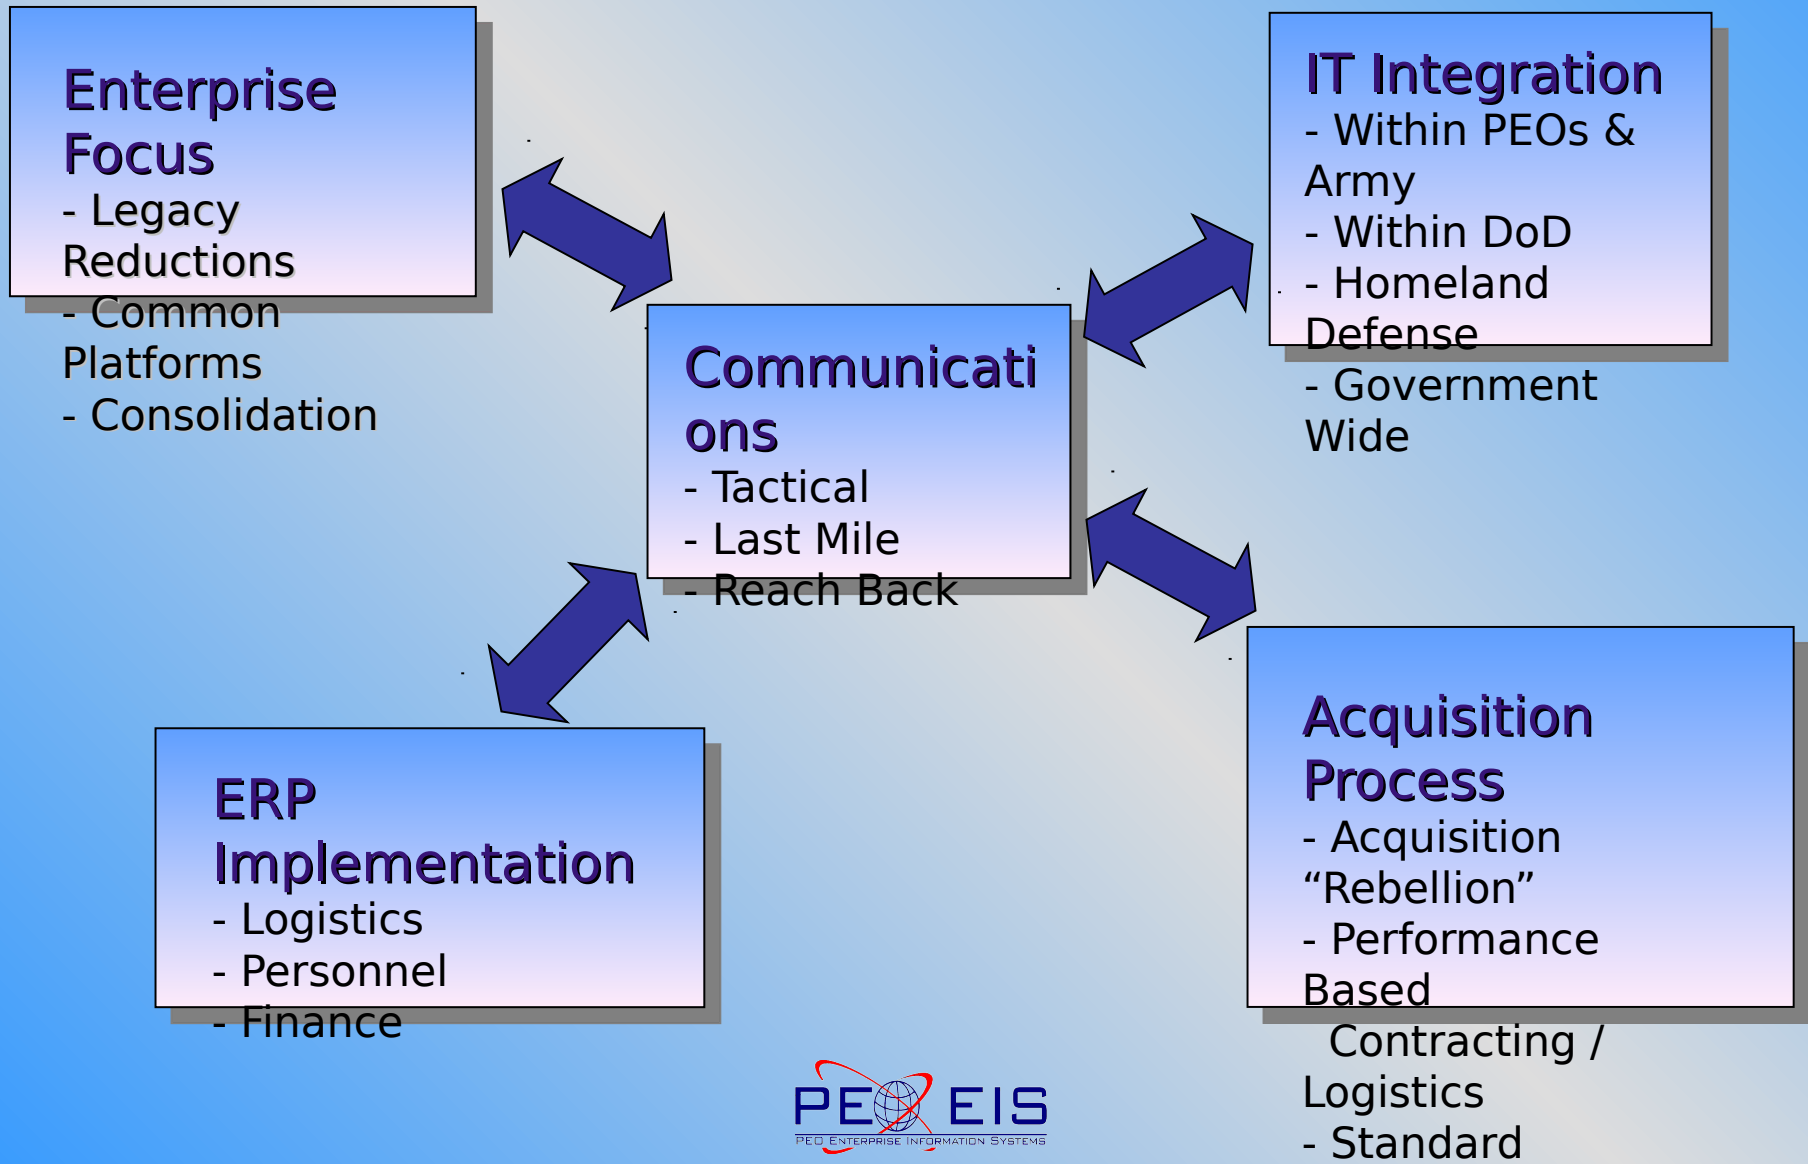

OSD / HQDA Program

PM Office Focus Areas

Challenges

Enterprise Consolidation

FY 2006

FY 2008

Web-Enabled,
Joint Systems

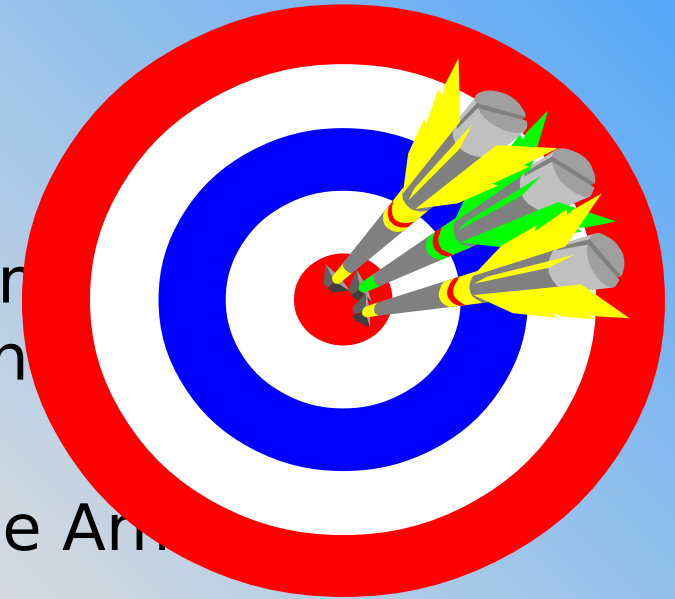

Circa 2006

Army Infostructure Objective State

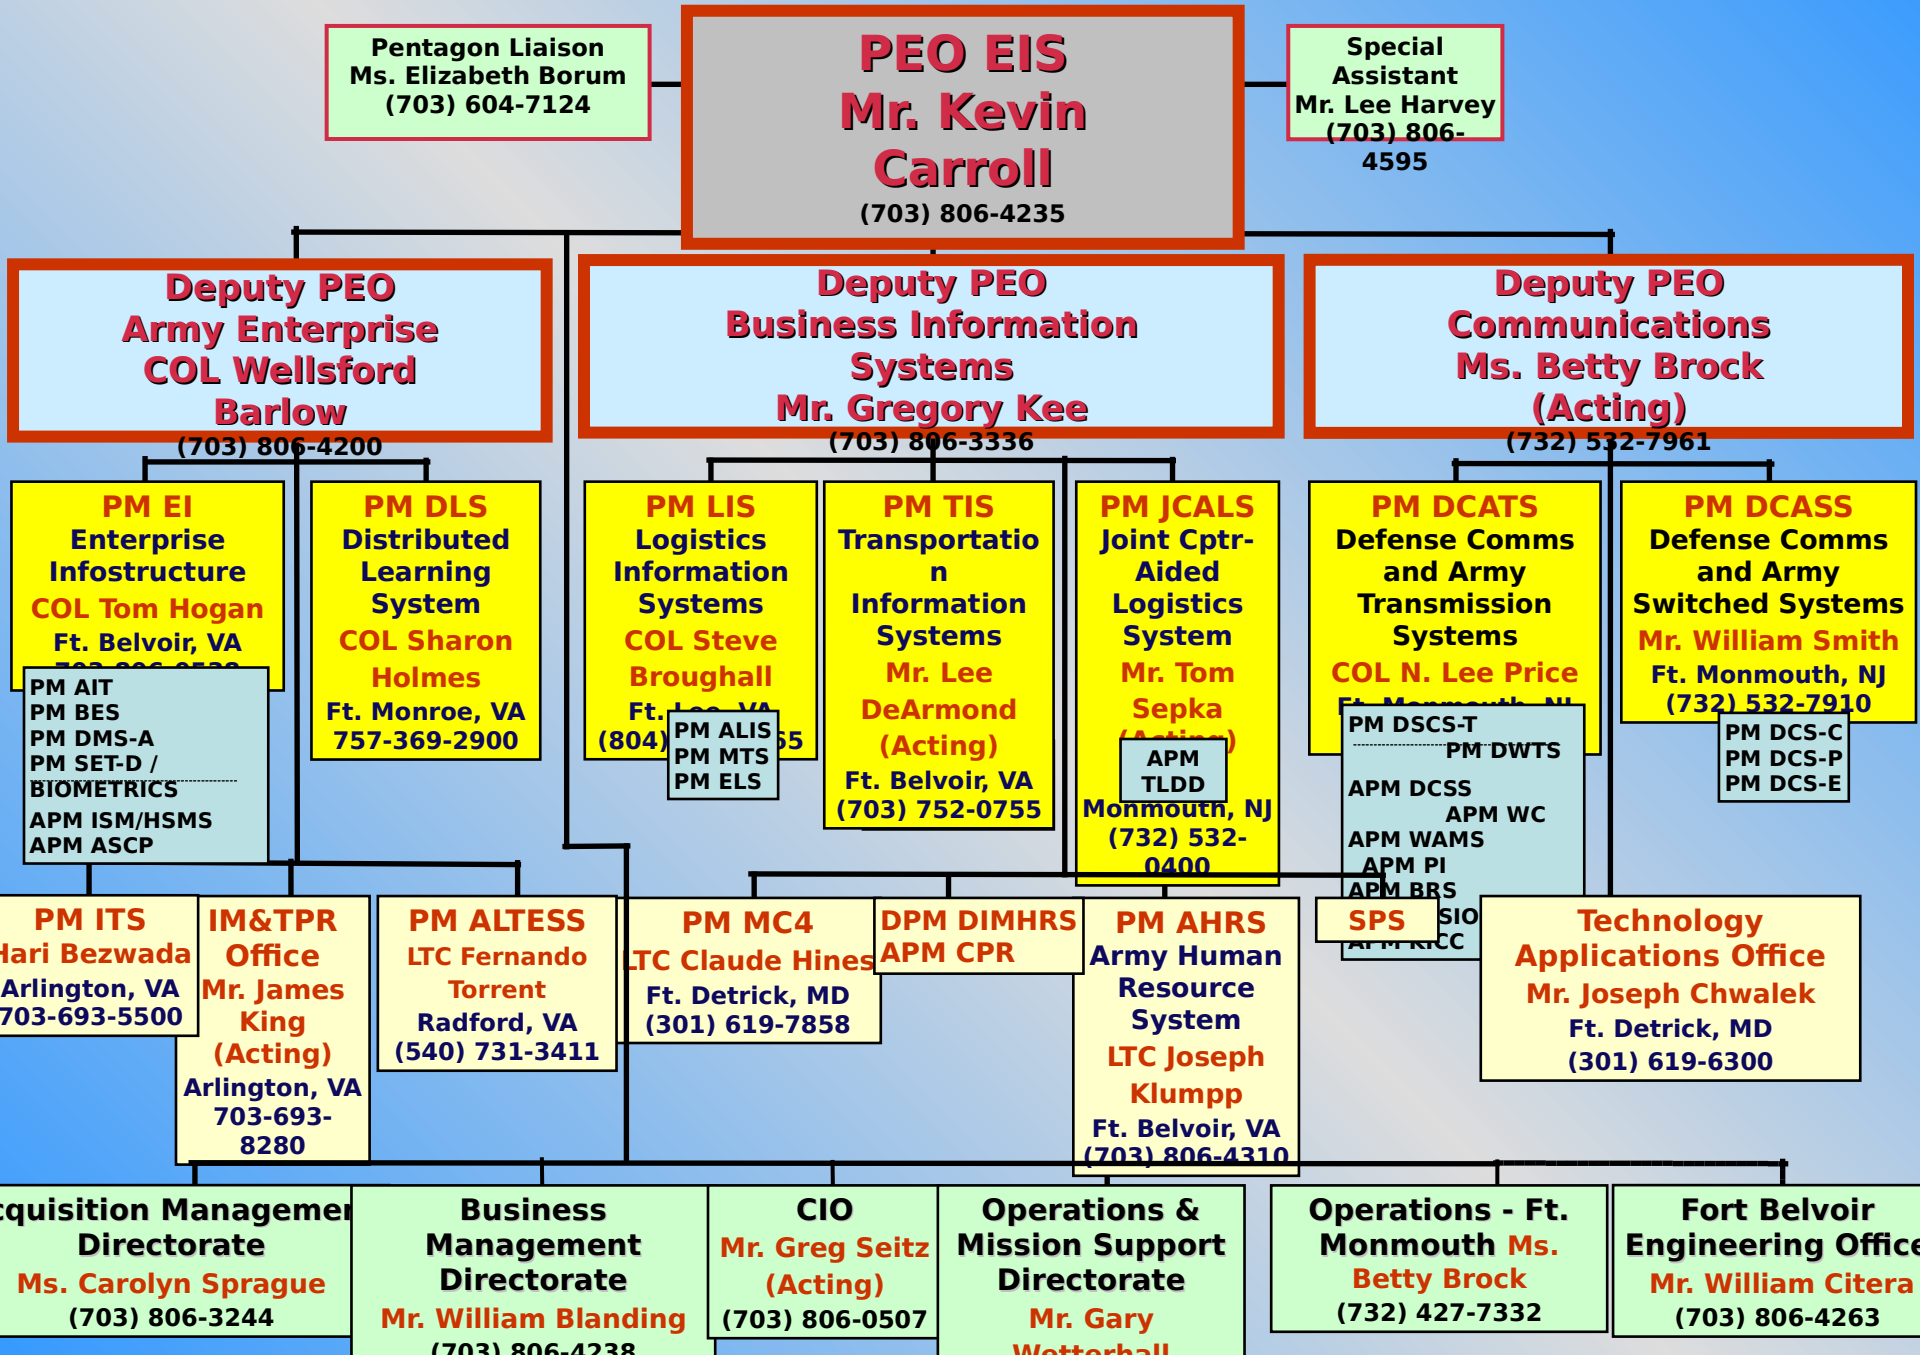

- Single Army Network
- One Army Portal
- Able to electronically find anyone anywhere within the infostructure
- Plug & Play anywhere within the Army infostructure
- Universal access to Army knowledge

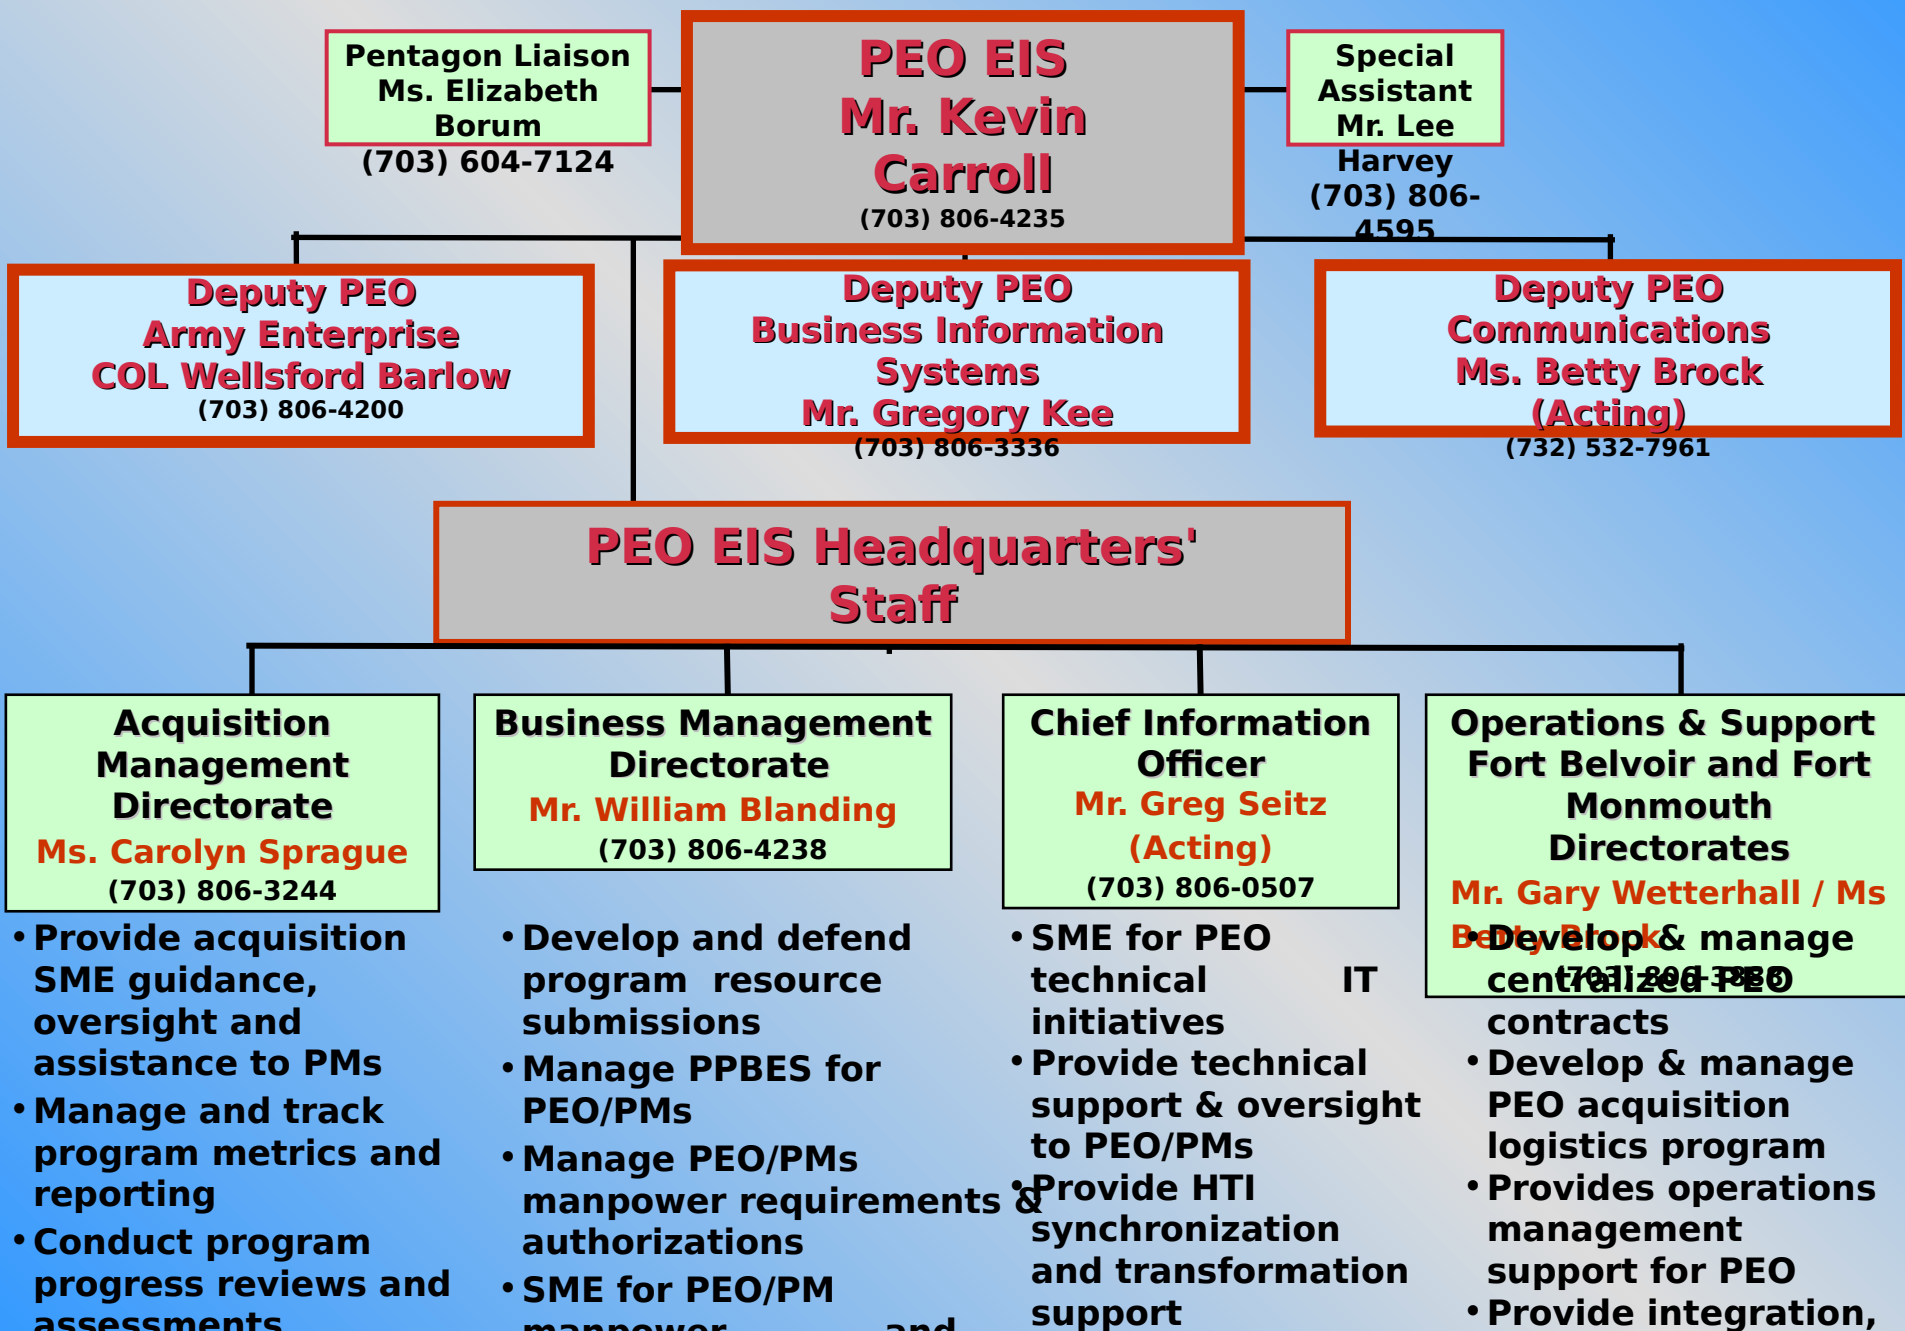

Any new system or capability introduced into the Army Infostructure must advance us toward this Objective Environment"
